

JAMEY P. EDDY, *Research Biologist*

EDUCATION

B.S. California Polytechnic State University, San Luis Obispo, California 1992 *Animal Science*

PROFESSIONAL EXPERIENCE

1995-Present *Biological Technician*, Western EcoSystems Technology, Inc., Laramie, Wyoming
 1986-1994, 1980-1984 *Food Production/Raptor Breeding Specialist*, University of California, Santa Cruz Predatory Bird Research Group, Oakland, California

SPECIALTY AREAS

Wildlife Studies: Conducted wildlife studies in conjunction with wind power and cellular tower developments, including raptor nest surveys and monitoring from helicopter and ground, raptor and avian point counts, lagmorph, ground squirrel, and prairie dog surveys, sage grouse lek counts, and mountain plover and swift fox surveys.

Endangered Raptors: Designed, constructed, and operated an efficient food production facility (primarily *coturnix* quail) for endangered peregrine falcons and other endangered raptors. Participated in high intensity management and husbandry of a captive population of breeding falcons and reintroduction of young. Maintained entire seven-acre facility. Assisted with fund raising at the corporate level. Surveyed and monitored peregrine falcon nest sites to determine occupancy and productivity.
